

KPM relay testing equipment with high current rating, precision & advanced software. Ideal for distance, differential, df/dt & protection relay testing.

Compact, high-power relay test systems with IEC 61850 protection test capabilities and advanced touch interface. A software dedicated for commissioning and maintenance in digital substations. RTMS ...

Smart Multi-phase Relay Protection Tester is a new generation of intelligent relay protection test equipment for Substation ABB, Siemens, SEL, Schneider, NR microcomputer protection device etc.

We design and manufacture a wide range of electrical test equipment, including solutions for testing protection relays, testing solutions compliant for IEC61850 environments, voltage and current ...

Find your protection relay testing device easily amongst the 72 products from the leading brands (MEGGER, OMICRON, WUHV, ...) on DirectIndustry, the industry specialist for your professional ...

Switchgear, or relay testers, are ideal for testing protection relay systems. Rent or purchase from ATEC and receive your product with immediate shipping.

Find product information on Littelfuse relay test equipment for ground fault protection and reliable testing of current and time-delay pickup levels.

Perform tests independent of relay type and relay manufacturer with system-based protection testing. The open programming interface CMEngine enables you to integrate the CMC test sets into your ...

The SEL-4000 Relay Test System is designed for testing protective relays that have low-level test capabilities. The system consists of the SEL-AMS Adaptive Multichannel Source and either the SEL ...
