

HFBR-1515BFZ is metal housing optical transmitter suitable for optical communication in industrial and harsh environment. It meets PROFIBUS application that allows data transmission from ...

What is a Dual Fiber Optical Transceiver? A dual fiber optical transceiver uses two separate fibers--one for transmitting and the other for receiving data. This design ensures higher ...

Corning's 720 series ST (single tube) fiber connectors and adapters offer superior performance and high repeatability. These products are fully intermate able with ...

PANDUIT ST adapter modules are completely modular to allow use with other connectors for multimedia solutions. Modules are MINI-COM compatible for use in all patch panels, faceplates and surface ...

Learn everything you need to know about ST connectors, a type of fiber optic connector used to connect fiber optic cables. Includes info on adapters, plugs, and more.

The NBX-TRX-3G-ST from MultiDyne provides a miniature solution to transmit and receive 3G/HD/SD-SDI signals over single-mode fiber optic cable using ST fiber optic connectors at distances up to 10km.

The Complex CMX-ST-ST-SM is a simplex ST fiber chassis mount feedthrough which can be used in place of any D-series type panel mount. It is both singlemode and multimode compatible for flexibility ...

Corning's 720 series ST (single tube) fiber connectors and adapters offer superior performance and high repeatability. These products are fully intermate able with all standard ST products and deliver very ...

Supports Dual Speed Fiber Mode (configurable by dip switch) - Select 1000Base-SX or 100Base-SX - interconnecting with existing fiber nodes is easy with this media converter.

Mouser offers inventory, pricing, & datasheets for ST Fiber Optic Transmitters, Receivers, Transceivers.

The ST Connector features a 2.5mm ceramic ferrule with a spring-loaded mechanism, secured by a bayonet mount. This design allows for easy connection and disconnection, suitable for ...
