

The card uses a dual-slot PCIe format and is intended for standard air-cooled servers, giving organizations a way to add GPU acceleration without moving directly to dedicated accelerator ...

Targeted at agentic AI, Instinct MI350P PCIe cards are dual-slot drop-in cards for standard air-cooled servers. They are built to deploy inference on premises within customer's current data ...

AMD has announced its brand new Instinct MI350P PCIe GPU accelerator, which is the first PCIe design in years and is aimed at AI workloads.

Native Acceleration for Enterprise AI Precision Levels AMD Instinct MI350P PCIe cards support the spectrum of precision levels that enterprise AI models rely on most.

Discover top server acceleration cards with PCIe Gen4, FPGA, and AI inference support. Find verified suppliers, low latency, and customizable options. Click to explore high-performance ...

AMD now has the fastest AI accelerator card on the market that fits in a traditional PCIe slot.

Performance That Drops into Your Existing Racks Designed to help you prepare for the agentic AI era, AMD Instinct MI350P PCIe cards are dual-slot drop-in cards for standard air-cooled ...

AMD wants to make enterprise AI fit into the servers you already own AMD's Instinct MI350P PCIe GPU puts enterprise AI on a shorter runway, bringing high-memory acceleration to ...

AMD launches Instinct MI350P PCIe AI accelerator card with 144GB HBM3E memory, targeting air-cooled enterprise AI servers as Nvidia H200 NVL competitor.
