

Slovakian Gas Sensing Optical Cable Size Manufacturer

We are here to assist you in selecting the ideal gas sensor for your products, providing comprehensive technical documentation, and delivering a customized proposal that meets your specific project needs.

FG-OD is a digital sense cable for detection and location, along the entire length, of liquid hydrocarbons and liquid insoluble in water present on the cable. It allows multiple leak detection and location ...

Optical fibre-based sensors are expected to provide superior sensing capabilities compared to electrical sensors. This review paper covers a detailed review of different fibre-optic ...

Fiber optic temperature monitoring technology is gaining traction in Slovak industries due to its unique advantages such as immunity to electromagnetic interference, high sensitivity, and distributed ...

SYLEX is a world-class original design manufacturer of high quality optical interconnect solutions and fiber optic sensors and sensing systems.

We specialize in the development, production and calibration of NDIR gas sensors, revolutionizing industrial applications worldwide. Our state-of-the-art sensors offer high accuracy and ...

FEBUS Optics is the world reference in DFOS, distributed fiber optic sensing systems (DAS, DTS and DSS), to reduce the environmental impact of human activity, protect people, and optimize production.

As an ISO 9001:2015 certified organisation, SST specialises in the manufacturing, design, customisation, and configuration of a diverse range of sensors and switches for gases and liquids.

Accessories, sensors, Cable 073G0102 Used for product: DST G, Parts included: Cable with plug 2,50 m I/40, Packing format: Industrial pack, Quantity per packing format: 40 Where to buy

Slovakia is home of two GPV production sites: GPV Cables SK in Hlohovec offers cables assemblies and box-build. GPV Electronics SK (N+P) in Nova Dubnica and Piestany offers high-volume ...
