

The SmartOTDR SL is a lightweight optical time domain reflectometer (OTDR) that can be controlled with a smartphone, a tablet or a VIAVI OneExpert (ONX) test platform.

VIAVI provides the widest range of OTDR testing tools delivering everything from basic fiber certification to fully automated bidirectional OTDR testing that scales for multi-fiber cable certification.

It integrates all the essential fiber test requirements into a single device with OTDR measurement, fiber end face analysis, optical loss testing and visual fault locator.

The lightweight and compact SmartOTDR speeds and optimizes field testing of metro and access networks--with a tailored OTDR interface and automatic analysis that any technician can understand.

We calibrate fiber optic test equipment to NIST standards. Avoid network issues. Quick turnaround. Stay industry compliant with FIS.

The GAOTek Fiber Precision Analyzer is a compact, dual-wavelength tester for FTTx and network maintenance. It features OTDR, Optical Power Meter, and Visual Fault Locator with measurement ...

It integrates 12 functions, such as auto OTDR, expert OTDR, event map, OPM, RJ45 cable tracker, and "computer level"; file management to meet various test requirements in different occasions. As a ...

We build fiber optic and network cabling infrastructure for businesses across San Jose: structured cabling, low voltage cabling, backbone fiber, MDF/IDF termination, fusion splicing, and OTDR / ...

It integrates all the essential fiber test requirements into a single device with ...

The Smart OTDR-136FB is an instrument that is both lightweight and compact, and it is regarded as one of the best OTDRs currently on the market. It provides wireless connectivity so that easily ...

Affordable, easy-to-use handheld testing for techs at any level. With a tailored interface for different skill levels, it speeds and optimizes field testing for any technician. Tech Optics, in business since 1988 ...
