

One monthly rate for your network. The Meter PDU is the centralized platform for monitoring, managing, and enforcing power across your network.

Modular, compact intelligent PDU with inlet metering. Ultra-Low Profile Design. Reduce IP addresses by Daisy Chaining up to 64 PDU"s.

Designed for high-power environments, these PDUs offer advanced monitoring, outlet-level protection, and flexible IEX+ outlets to support today"s most demanding workloads.

A smart PDU, also known as intelligent PDU, goes beyond distributing power to IT equipment within the data center. It is capable of monitoring, managing, and controlling power consumption to multiple ...

Discover the difference between traditional and smart PDUs. Learn how smart PDUs improve efficiency, control, and uptime in data centers.

Discover the key differences between metered, monitored, switched & smart PDUs. Find the best power distribution unit to boost efficiency & save costs!

Server Technology Smart PDUs can be purchased with our award-winning HDOT (High Density Outlet Technology), Cx outlets, and Alternating Phase technology. With HDOT, you get the highest outlet ...

Smart PDU (Power Distribution Unit) is a power management device used in data centers and computer rooms. It not only supplies power to IT equipment in data centers, distributes ...

iPower ACU is the 3rd generation of iPower intelligent PDUs designed to aid Data Centre power management. It has an Advanced Control Unit powered by an improved processor that delivers new ...

Smart PDUs are also known as intelligent PDUs or networked PDUs. Marway"s smart PDUs features several networking protocols to make it easy and familiar to monitor power data, control outlet on/off ...
