

FS 40Gb Switches offer high bandwidth, network virtualization, and redundancy, ensuring efficient deployment for campus core and distributed networks.

Discover professional-grade 40GB network switches with advanced switching capacity. Shop managed and unmanaged options.

Los FS 40G Ethernet Switches de alta velocidad y densidad de puertos le ofrecen opciones rentables para actualizar gradualmente y disponer de un ancho de banda flexible en toda la infraestructura ...

The VPX3-655 provides connected processing systems with high-speed 40G or 10G backplane links to processors, as well as powerful 10G connectivity to sensors, datalinks, and other computers using ...

The VX6940 is a 6U VPX non-blocking L2/L3 switch built around a Broadcom's 72 &#215; 10GbE port high-density switch with 100G uplinks capability offering 720 Gb of I/O bandwidth.

Stand alone versions of the switch are available in 19 inch form factor, featuring a set of SFP+ or Mil-Std-38999 connectors qualified for industrial or airborne applications.

FS 40GbE data center switches with high speed & port density are best for data center ToR or Spine-Leaf solution to handle demanding workloads in the core layer, which meet different needs of users ...

Take steps now to modernize your facility and thermal management strategies for tomorrow's liquid-cooled switches. Meet with your Cisco team or partner to discuss how to design, ...

The VX3940 is a 3U VPX Fully Managed L2/L3, 1/10/40/50 Gigabit Ethernet Switch. It is designed in alignment with the SOSA(TM) Technical Standard, as well as being compatible to a wide range of ...

I know it is a very long shot but I'm looking for a very small - maybe 8 port 40gb/10gb switch - RJ45 and QSFP for the 40 or maybe an all 40GB 8 port switch. Ideally something that ...
