

The evenly spaced holes and slots in our trays provide efficient cable management and optimal air circulation for improved cable performance. With a high load-bearing capacity, our trays can be ...

JLH perforated type cable tray has the characteristics of high tensile strength, superb chemical resistance, low maintenance, quick installation and space saving, etc. It is extensively used for any ...

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems available.

ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia.

VIATEC offers a robust, all-in-one solution for advanced cable management needs. Featuring self-coupling perforated or solid bottom sheet steel cable trays, this system is complemented by ...

With multiple material and surface treatment options, it is built to withstand demanding environments. Suitable for voltage cable and power cable routing. Ideal for control cable routing without shielding ...

Our perforated trays are available in GI (galvanized iron), stainless steel (SS304/SS316), and aluminum, suitable for indoor and outdoor applications. They can be used in data centers, hospitals, airports, ...

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Made from high-quality, corrosion-resistant materials, these trays feature perforated designs that enhance air circulation, reducing heat buildup and preventing cable damage. The perforations also ...

Coupler Plate Used to join two cable trays in a straight line, ensuring proper alignment and structural continuity.
