

Shop high-quality large span cable trays from reliable suppliers. Durable, versatile, and perfect for various infrastructural and electrical applications.

Engineered for long distance cable routing, long-span cable tray offers high load capacity and strong structural durability for industrial applications.

SFSP manufactures a wide range of products capable of providing the characteristics which respond to the proposed application, along with quality of assembly, speed of installation, and cost-saving cable ...

The large-span cable tray supports a large span and has strong bearing capacity. It can be divided into ladder type, groove type, and perforated type, assembled from extruded fiberglass profiles.

At a fixing span of 3000 mm, these heavy duty trays are able to handle a point load of up to 200 kg. without being damaged. Cable trays of a special size can be produced according to customer ...

Cable trays - Cable trays, wide span.

The Aluminum I-Beam Design Of Itray Is Perfect For Industrial Installations With Large Diameter Cables In Long Span Situations, Minimizing Total Tray Width and Creating A Smooth Transition Between ...

Different from normal cable trays, Large span cable tray has large supporting span with high loading capacities. Large span cable tray is assembled by pultruded FRP profiles.

The long-span cable tray adopts the structure of a strengthened side plate, which greatly increases the load capacity of the bridge. The product is suitable for the installation of long-span lines.

This product line is designed for applications with extremely heavy loads and long spans. Tray systems are available in lengths of 30, 40 and 50 feet to accommodate 30-50 foot support spans.
