

The NanoSpeed(TM) series multi-mode 1x2 solid-state fiber (MMF) optic switch connects optical channels by redirecting an incoming optical signal into a selected output optical fiber.

Designed for durability and precision, our optical switches support single-mode and multimode fiber types with low insertion loss, high return loss, and reliable repeatability. With support for various ...

XH-OSW-1X2-optical switch is an optical path control device with ...

Each 1x2 Optical Switch connects optical channels by redirecting 1 incoming optical signals into 2 output fibers. This is achieved using a opto-mechanical ...

1x2 Wideband Optical Switch OSW-W1x2 optical switch is a high performance electro-optical device, with low insertion loss (typic...

GEZHI 1x2 Mechanical Optical Switch support all wavelength at 1260nm~1650nm, it offers ultra-high reliability, low insertion loss, fast switching speed as well as bi-directional performance.

To ensure precise operation, the switch is equipped with integrated electrical position sensors, allowing for accurate control and reliable performance. Built on thin-film filter technology, this switch provides ...

XH-OSW-1X2-optical switch is an optical path control device with the function of controlling the optical path and converting the optical path; it can realize 2 optical signal inputs and select the signal output ...

Up to 120km : Fiber transceiver provides multiple Gigabit SFP optical ports and 10/100/1000M adaptive RJ45 network ports, users can choose different SFP optical modules ...

Electrical switches for control upgrade or replace your vehicle's switches with our high-quality selection, designed for durability and precise operation.

The NanoSpeedTM Series 1x2 solid-state fiber optic switch connects optical channels by redirecting an incoming optical signal into a selected output optical fiber.

To assure the most stable, repeatable optical performance after the optical cables have been connected, immobilize the cables using wide pieces of tape or another form of mechanical cushion.

Optical Switches are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many optical switch manufacturers including Broadcom, Omron, onsemi, ...
