

2x2 Cross/Bar Switches (4 Fibers) OSW-D2x2 switch is a cross-bar switch. It has four by four (4x4) ports, which consist of two groups ...

Our NS fiber optical switch has ultra-high reliability and can continuously operate for over 25 years in a vibration environment (passed Telcordia and space qualifications). The switch is bidirectional and ...

Optical switches are utilized to disconnect, bypass and reroute fiber optic communications. All of these optical switches are purely optical path, there is no optical to electrical to optical conversion.

The NI-2x1SW is an optical switch designed to offer system designers increased flexibility in their fibre installations. Two separate optical inputs A and B are fed into the single slot MMS card.

This article provides a comprehensive overview of optical switches, explaining their fundamental principles and diverse applications in areas like laser technology, optical communications, and ...

Mouser is an authorized distributor for many optical switch manufacturers including Broadcom, Omron, onsemi, Sharp Micro, TT Electronics, Vishay & more. Please view our large selection of optical ...

Fiber optic switches, multiplexers and demultiplexers block or route optical signals in a fiber optic network. Where switches simply block or pass optical signals on individual or multiple channels, ...

The 2x2F Bi-directional Fiber Optic Switch connects optical channels by redirecting 2 incoming optical signals into 2 output fibers. This is achieved using a opto-mechanical configuration and activated via ...

Mouser offers inventory, pricing, & datasheets for 2 Channel Optical Switches.

With just a light touch, these switches turn circuits on and off in sanitary areas--even when you're wearing gloves. They're ideal for environments that require frequent cleaning, such as food and ...
