

Wavelength Division Multiplexing (WDM) is a technique in fiber-optic communication systems that enables multiple optical signals with different wavelengths to be combined, transmitted, and ...

If a particular action or feature is typical of someone or something, it shows their usual qualities or characteristics.

Wavelength Division Multiplexing (WDM) is a technology that increases the bandwidth of existing fibre optic networks. We explain the different types of WDM and how WDM-enabled optical ...

TYPICAL definition: of the nature of or serving as a type or representative specimen. See examples of typical used in a sentence.

typical implies showing all important traits of a type, class, or group and may suggest lack of strong individuality.

Wavelength Division Multiplexing (WDM) is a fiber optic transmission technique that combines multiple optical signals at different wavelengths into a single fiber, significantly increasing ...

When something is typical, it is common, regular, expected -- hanging out with friends and playing computer games are typical activities of American teens.

typical, adj. meanings, etymology, pronunciation and more in the Oxford English Dictionary

Wavelength Division Multiplexin (WDM) Optical Transmission Equipment by Application (Communication, Electricity, Commercial, Industrial and Public Sector, Others), by Types (Coarse ...

TYPICAL definition: 1. showing all the characteristics that you would usually expect from a particular group of things.... Learn more.

Find 86 different ways to say **TYPICAL**, along with antonyms, related words, and example sentences at Thesaurus .

An interferometric device uses 2 interfering paths of different lengths to resolve wavelengths Typical configuration: 2 3-dB directional couplers connected with 2 paths having different lengths ...

A typical dense wavelength-division multiplexing (DWDM) system uses 40 channels at 100 GHz separation, 80 channels with 50 GHz separation, or even 320 channels at 12.5 GHz separation ...

characteristic of a person or group of persons, animals, or things: his typical mannerisms.[It + be + ~ + of] It was typical of him to give a twenty-minute speech.

Exhibiting the qualities, traits, or characteristics that identify a kind, class, group, or category: a typical suburban community. 2. Of or relating to a representative specimen; characteristic or distinctive. 3. ...

The technology of combining a number of such independent information-carrying wavelengths onto the same fiber is known as wavelength division multiplexing or WDM [1-6].
