

West Africa Fiber Optic Vibration Sensing System Manufacturer

Based on a proven track record our Distributed Fiber Optic Sensing (DFOS) solutions ensure reliable asset protection even in the most challenging environments. We have established ourselves as the ...

Using a fiber optic cable attached to the fence, the FiberPatrol FP1100 detects and locates intrusions over distances of up to 50 km (31 mi) per processor. The sensor is EMI and lightning immune, having ...

Discover tailored solutions for your fiber infrastructure needs. From consulting to supplying top-quality accessories, we're your trusted partner in Africa. Unleash the potential of our premium duct fiber ...

At Hikvision, we offer optical fiber products that use light waves and optical fibers to detect and respond to environmental changes precisely. Our solution is perfect for perimeter intrusion detection, ...

Representing the next step in the evolution of Distributed Fiber Sensing, ONYX(TM) converts existing telecommunications fiber optic cable into a rich vibration, detection and ranging system.

The key strength of NetworkSense Solutions lies in our ability to integrate advanced fiber optic sensing technologies with existing infrastructure, ensuring seamless, cost-effective deployment.

Backed by its expertise, its highly qualified and experienced team, and its dedicated Test Center, FEBUS Optics combines excellence and reliability to meet the most complex challenges across ...

Our portfolio of distributed temperature, strain and acoustic sensing-based solutions help our customers to turn data into decisions. As a leading independent provider of fibre optic-based distributed sensing ...

The Africa Vibration Fiber Optic Perimeter Alarm System market encompasses distributed acoustic sensing (DAS), distributed vibration sensing (DVS), and point-based fiber Bragg grating ...
