

What quota applies to multimode fiber optic pigtails

Our fiber optic pigtail offers a flexible solution for your data centers and telecom rooms, connecting existing equipment to spliced fiber optic lines for network expansion.

Stock pigtail configurations are available with your choice of LC, SC or ST fiber optic connectors and a variety of endface polishes. Available in 6-packs or 12-packs at standard 3 meter lengths.

FIBER OPTIC JUMPERS connect point to the electronics. With unmatched in-sertion loss and exceptional return loss, OCC's full line of fiber jumpers ensures e right connection every time. Available in ...

FS offers single mode & multimode fiber pigtails with tight buffer design for easy fusion or mechanical splicing. Quality assurance by 100% end-face, IL & RL testing.

We stock one of the largest arrays of singlemode fiber optic pigtails and multimode fiber optic pigtails in the USA. We can ship most fiber optic pigtails and fiber optic pigtails the same day.

Along with multiple connector types -- including ST or FC for older devices, SC for common snap-in applications and LC for smaller form factors, high-density installations -- our multimode fiber optic ...

The 50/125 multimode fiber in these cables is the most common type of fiber optic cable for short-distance applications. It can transmit data at speeds of up to 10 Gbps over distances of up to 2 ...

Cable length, cable diameter, and jacket are optional. The typical type of fiber pigtail most uses 0.9mm cable, because it is especially suitable for high-density splice application. Fiber Pigtail is utilized to ...

High quality pre-terminated 900µm optical fiber pigtails with LC, SC, ST connectors for fiber splicing applications. Choose from single mode, multimode and 10G OM3/OM4 fibers.

We carry Fiber Optic fusion splicers, cleavers, OTDRs, cables, panels, laser sources, power meters, and many other Fiber Optic products for any project.
