

Find the best deals on Aggregation Network Switches from our Wholesale Manufacturer, Supplier, and Factory. Shop now for high-quality products and competitive pricing. Maximize your network's ...

The S9857 switch supports high-density 800GE/400GE ports, with powerful forwarding capabilities, supporting a maximum of 8 x 800GE OSFP800 and 24 x 400G QSFP112 ports. it meets the ...

NADDOD offers 400/800GbE 51.2T and 25.6T spine, leaf switches for Ethernet/RoCE-based AI data center networks, delivering high performance and low latency.

We are a FTTx solution provider in China with rich experience in High-Bandwidth Aggregation Switch 400Gbps, with competitive price and top quality.

For the most demanding environments the 400G routing and switching platforms provide flexibility and choice for large scale cloud, leaf and spine, routing transformation and hyperscale IO intensive ...

Get a high-performance, power-efficient, and compact switch that keeps up with AI/ML bandwidth needs.

In a single rack unit, the switch provides an extensive selection of services across all 32 QSFP-DD ports--each port supporting up to 400G of data throughput. The 400G EdgeSwitch meets the ...

It supports various configurations and can be deployed as a spine switch for 100/400 GbE interconnects. The switch comes with the Open Network Install Environment (ONIE), compatible with various ...

FS 400G data center switches offer high speeds and port densities to meet the network deployment requirements of various scenarios and the evolving requirements of next-generation data center ...

The AGR560 is a high-performance 400GbE aggregation router that consists of fixed 12 x 400G QSFP-DD (23 W) and 24 x 100G QSFP28 (6.5 W) network interfaces in a 2RU compact design that can be ...
