

Fiber cable duct is designed to protect and route fiber optic patch cords, multi-fiber cable assemblies, and intrafacility fiber cables (IFC) to and from fiber splice enclosures, fiber distribution frames and ...

The cable manager is made from high-visibility yellow steel to help you identify its contents in a crowded rack. No hardware is required for toolless 0U vertical installation in an EIA-standard 19-inch rack.

Fiber Guide is the preferred choice in central offices, data centers and mobile switching centers, offering increased flexibility and reduced installation time while maintaining the proper fiber bend radius.

Yellow Fiber Duct PVC Plastic Cable Tray ABS Raceway, Find Details and Price about PVC Fiber Raceway ABS Fiber Duct from Yellow Fiber Duct PVC Plastic Cable Tray ABS Raceway - ...

A flexible, durable and safe gutter system for fiber optic cables. This halogen-free YellowDuct™; has been specially developed for demanding fiber optic environments, such as data centers, hospitals, ...

The FiberRunner 12x4 Horizontal Tray is used to carry the cables horizontally ...

Specially engineered for high-visibility and durability, yellow plastic cable trays combine structural support with safety and environmental resilience. Made from impact-resistant polymers, these trays ...

The FiberRunner 12x4 Horizontal Tray is used to carry the cables horizontally throughout the system. It accepts cable retainers FRCR12BL or hinged cover FRHC12YL2.

Used to carry the cables horizontally throughout the system. Accepts cover and fittings.

Designed to route and protect fiber optic and high-performance copper cabling to and from network cabinets, distribution frames, and other terminal devices.
